

TECHNICAL DATA

AP

- Weight: 853 g
- Projectile: 400 g
- Propellant: 126 g
- Explosive: None
- Length: 292 mm
- Explosive Type: None
- Muzzle Velocity: 970 mps
- Self-Destruction Time: None

AP-T

- Weight: 853 g
- Projectile: 400 g
- Propellant: 126 g
- Explosive: None
- Length: 292 mm
- Explosive Type: None
- Muzzle Velocity: 970 mps
- Self-Destruction Time: None
- Tracer Burn Time: 3.5 s
- Armor Penetration (at 60° angle):
 - at range 500 m: 30 mm
 - at range 1000 m: 28 mm
 - at range 1500 m: 25 mm

30 x 165 MM, AP & AP-T

Description: Designed for use with the anti-aircraft gun 30 mm 2A72, 2A42, and 2A38M, the 30 x 165 mm AP rounds are intended for engagement with light to medium armored ground and air targets with armor of up to 30 mm.

On impact the penetrator starts to progressively break-in through the armor, forming a bundle of high-speed fragments. The higher energy of the fragments ensures more damage and higher kill probability behind the armor.

PACKING DATA

Standard Packing:

18 rounds per metal box
3 metal boxes per wooden case

Case weight: 61 kg
Case dimensions: 86 x 38 x 22 cm
Case volume: 0.072 m³

Hazard Class/Division & Storage

1.2.2E
